Continuation of Disposition of Claims: Claims pending in the application are 1,50,95,142,190,191,284,298-307,309-316,322,330,338,390,391,393,394,400,408,416,468-481,484,485,495,498,500,501 and 511.

**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 284, 285, 469 and 485, drawn to a cutting tool.

Group II, claim(s) 50, 95, 142 and 191, drawn to a system and method for radially expanding a tubular.

Group III, claim(s) 298, 479 and 495, drawn to an apparatus for gripping a tubular member.

Group IV, claim(s) 307 and 498, drawn to an actuator.

Group V, claim(s) 309, drawn to an apparatus for controlling a packer.

Group VI, claim(s) 312, drawn to a packer with a valve.

Group VII, claim(s) 313, 338, 391 and 416, drawn to a method and system of expanding tubulars having a bell section.

Group VIII, claim(s) 315, 316, 322, 330, 393, 394, 400 and 408, drawn to a method of forming a mono diameter well.

Group IX, claim(s) 390 and 468, drawn to a method of expanding by applying internal pressure at discrete locations.

Group X, claim(s) 484 and 500, drawn to a cementing method.

Group XI, claim(s) 501 and 511, drawn to a method of engaging a tubular.

Art Unit: 3672

The inventions listed as Groups I-XI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: All of the groups contain a different special technical feature.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claims 286-290, 299-306, 310, 311, 470-478, 480 and 481 have not been included in the restriction because these claims depend from cancelled claims.
